Build Your Own Box

Our process includes 5 simple steps, allowing you to select a wrap, box size, flavors, and finally review your customized order before checkout.

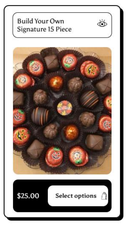
1 Gift Wrap Selection

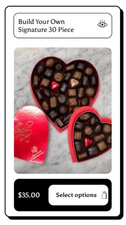
Choose a decorative gift wrap design for your box. This design will be shown on the outside of your box (used for gift packaging).

2 Select Size

Choose the size of your box: Small, Medium, or Large.

Small = 10 pieces Medium = 20 pieces Large = 30 pieces





3 Select Flavors

In this step, customer choose up to 10 flavors to include in their box.

- They can pick from a list of available flavors (e.g., Chocolate, Strawberry, Vanilla, etc.).
- **Maximum limit:** 10 flavors.
- **Minimum requirement:** 1 flavor (with 100%).

From timeless classics to seasonal surprises, there's something for every taste... and so many more delicious flavors to explore.

4 Adjust Pieces (Flavor Percentages)

This step lets customer assign percentage-based quantities to each selected flavor.

- The user must distribute exactly 100% across all selected flavors.
- Each flavor must have at least 5% minimum.
- Users can use sliders or plus/minus buttons to adjust the values.
- The system pre-fills suggestions based on the number of selected flavors, which the user can manually edit.

This step lets users assign percentage-based quantities to each selected flavor.

- Must total 100%
- Minimum per flavor: 5%
- The interface should block submission if these conditions aren't met.
